

Employee Morale is the **KEY** to any business success!

Make no mistake about it, *your employees* are
running your company!

How they treat your customers and each other,
decides how successful your company is going
to be.

**If you want your employees to give great customer service, two
things need to happen:**

1. Employees need to feel good about themselves and what they do!
2. Employees need to be taught “what” great customer service is and “practice” giving it.

Give your employees a **gift** that keeps on
giving... *to them and you!*
